

HOPE

Technologies

Designing solutions.
For an evolving world.

ABOUT US

HOPE is a global solutions company that offers a comprehensive and wide range of offshore and on-site service areas:

- MCAE
- GIS/AM/FM
- Electronic Cataloging
- Software Development
- Multimedia

HOPE has 5 years of global consulting practice and has achieved 500 man years of multinational experience.

HOPE Technologies has built up an impressive international client equity by consistently delivering value-added solutions. Because of the diversity of the projects we have brought to the market over the years, gaining new expertise with each success, we have the capability to solve complex challenges with creative solutions to meet your needs.

HOPE has high quality infrastructural facilities

The division has SOFTWARE TECHNOLOGY PARKS at Delhi and Bangalore, and is also represented in Mumbai, Madras, Srilanka, Nepal and Bangladesh. The centres are equipped with more than 180 high end Pentiums, Macs & SGIs.

HOPE has a qualified & motivated team of professionals

"Quality work comes from quality people". It is this firm ideology that has helped HOPE Technologies to grow to what it is today. With a team of more than 150 engineers, whose experience ranges from 2-20 years, and their multi-platform project handling expertise, HOPE Technologies is geared up to meet all challenges worldwide.

Our strong customer equity

We take the practice of 'customer service' to a new level. Our fundamental customer-centric approach is to ensure that our customers receive a quick response. We will meet your needs within 'Internet time', whether it is launching a new initiative from concept through design and implementation, tweaking your product quickly to address real time events in the marketplace, or maybe third party related technology glitches.

Our result-oriented solutions ensure the invaluable combination of fixed schedule, price and guaranteed delivery, at all times.
